## SINK INTO PINK

Taking inspiration from the season's rush of life and growth, Spring 2007 looks are rosy and fresh. "It's all about sheer, natural colours that make a woman look and feel beautiful," says Jillian Dempsey, Avon Global Creative Colour Director. Dempsey has created a line of limited edition products that celebrate the revitalizing power of spring. To illuminate and brighten your skin, try her Avon Sheer All Over Face Powder in Sandy Corals (\$14.99), a shimmering compact pressed with pretty flower pattern. For a velvety soft powder, use Cheek Blossom in Melon by Prescriptives (\$33), which also has a delicate floral design.

Give your eyes a renewed look with an Avon True Color Eyeshadow Quad in Washed Khaki featuring shades like pink nude and washed charcoal (\$9.99). Have fun blending with the Clarins Colour Quartet (\$42) that contains an anti-pollution ingredient to protect your fragile eyelid skin.

For lively lips, use any one of TEYE's ten ultra brilliant Super Gloss transparent shades (\$29) – available in pinks like strawberry, raspberry and nectar. Glossy but not sticky, Effet 3D Les Nudes by Bourjois Paris (\$15) can be applied on the centre of the lower lip for a full, sexy pout. Or try something completely different with Hot Pants Stained Glass (13.99), gloss inspired by the Op Art movement of the sixties.
